"I couldn't be happier with the quality of my new garage door! It's sturdy, smooth, and adds a polished look to my home."

Uncompromising Quality

NEW Anthracite Woodgrain Ribbed with Pedestrian Access Door

Your home deserves the very best.

Turn your garage into your home's best feature with a SeceuroGlide Sectional Garage Door.

Choosing the right garage door for you, your family and your home can be daunting. With SeceuroGlide Sectional Garage Doors we have developed a system that will not only transform the look of your property, but provides a quality, reliable solution that is as functional as it is attractive.

Why choose SeceuroGlide?

Whether you're looking to add kerb appeal, improve your home security, reduce heat loss, or just enjoy the convenience of electric operation, SeceuroGlide Sectionals provide the perfect package.

Benefits of a Sectional Garage Door

- Contemporary good looks in a wide range of styles
- Strong, durable, insulated steel design
- Vertical opening to maximise the space on your drive
- Smooth electric operation at the touch of a button
- Built-in security and safety for peace-of-mind

4

The Choice is Yours....

"The choice of panels was excellent! Style is important to me and I wanted a door that blended in with the modern appearance of my home."

NEW Anthracite Smooth Visio with Frosted Glazing

Lineo Decal with Round Windows

Choose a door that fits around you.

Whether you want to match your neighbours or stand out from the crowd, there is a SeceuroGlide Sectional to suit your style.

Seven Stylish Panels

From contemporary to classic, SeceuroGlide's wide range of panel styles offer something for everyone, including the new and *exclusive* Visio panel with its light-diffusing panoramic windows and sleek modern aesthetic.

Colour your Way

Match your door to your existing windows and doors or make a bold colour choice, with an extensive range of durable colours available in smooth, woodgrain or stunning matt sandgrain finishes. For a truly bespoke door, choose a custom paint finish, expertly matched to any RAL colour.

Design Features

Illuminate your garage space or make a statement with SeceuroGlide's range of stylish windows and decal designs. Opt for brushed aluminium windows for a touch of modernity, or seamlessly integrate colour-matched frames for a harmonious look. Or, add contemporary design details with a diverse range of sleek decal designs.

Added Convenience

From pedestrian access doors to letter boxes, ventilation grilles or even a cat flap, SeceuroGlide's range of accessories are designed to make daily life easier.

Medium Oak Woodgrain Finish

6

"We love how easy it is to open and close the door. Getting the bikes in and out of the garage is so much quicker now!"

Contemporary Living

Design a garage door that complements family life.

SeceuroGlide Sectional Garage Doors provide reliable performance when you need it most, and are designed to accommodate everyday modern life.

Easy Electric Operation

Automated control means the doors can be operated with just the touch of a button, unlike the cumbersome opening associated with traditional up and over garage doors.

Low Maintenance

If you value your time and don't want to spend your weekends cleaning, you'll love the low-maintenance finish, especially if you opt for a Dura coating – our most durable finish which does a fantastic job of minimising dirt or marks.

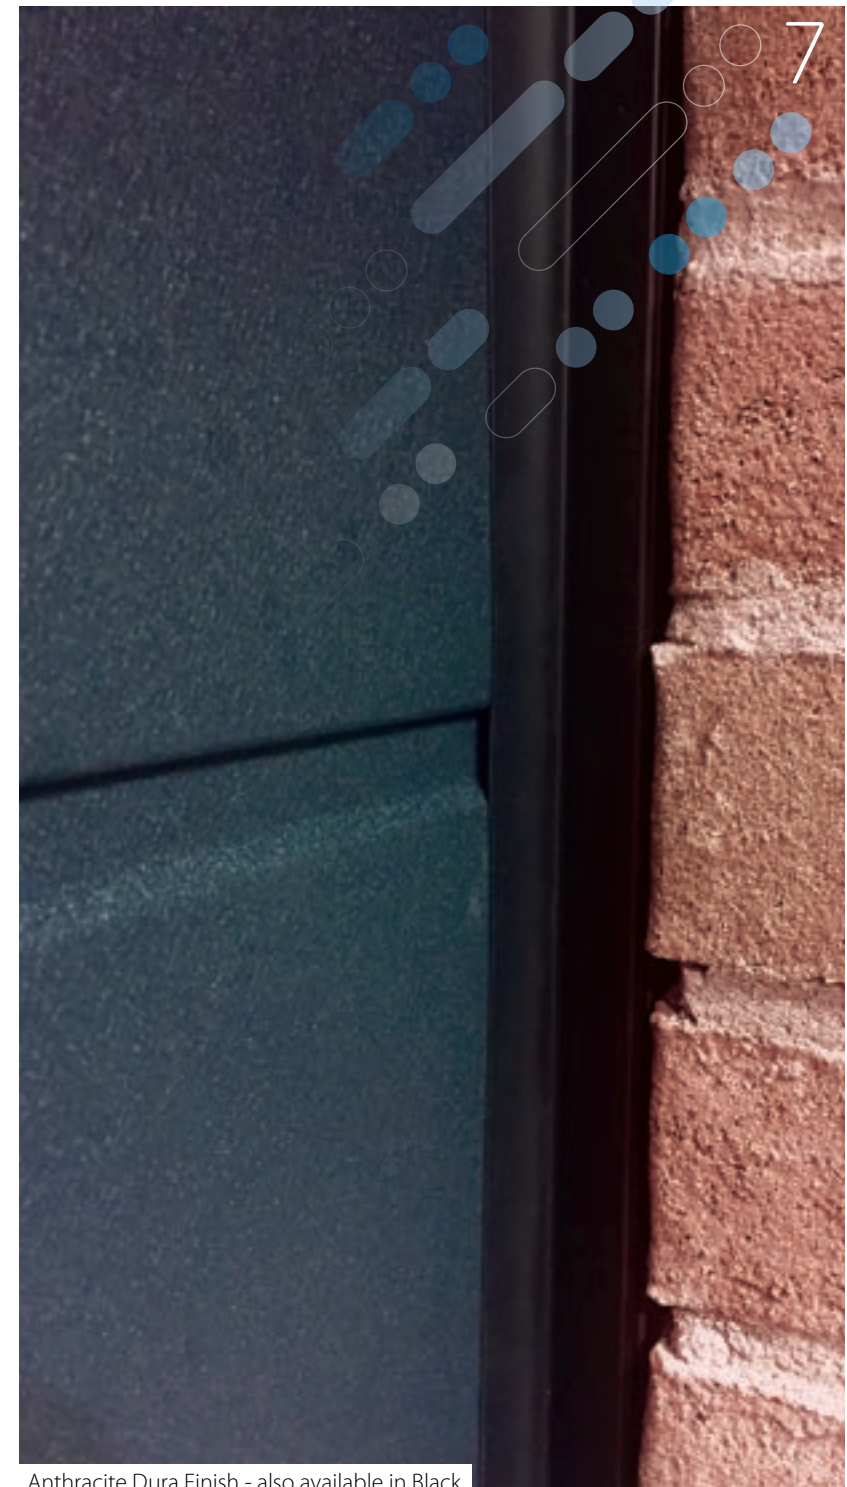

Space-Saving Design

If your busy household is bursting at the seams, no vertical outswing maximises driveway space, while the compact internal design increases drive-through width, meaning you can make more of your garage space, inside and out.

Safety without Compromise

The finger-safe design ensures fingers cannot be caught or trapped between the panels, meaning the door can be safely operated around pets and children.

Built-in obstacle detection in the motor operator automatically stops the door if it encounters an object, providing peace-of-mind protection for all the family.

Anthracite Dura Finish - also available in Black

Superior Performance

Key Features

Dual-Wall
Steel Panels

All-Round
Weatherseals

Optional SeceuroSeal – Watertight Protection

Keep your garage warm in the winter and cool in the summer with SeceuroGlide's insulated panels.

Heat and Sound Insulation

If, like nearly 50% of UK homeowners, your garage is your home-office, gym or workshop, you'll love the increased insulation provided by the 40mm thick SeceuroGlide panels. Each panel is constructed from two steel sheets which encase a foam core for strength and insulation. The steel is hot dip galvanised, before a primer and tough polyester finish coat is applied.

Built to Withstand the Weather

SeceuroGlide's range of finishes feature superior performance against corrosion and weathering. The surfaces are easy to clean with water and natural soap, so maintaining the pristine look of your garage door can be done in as little as 5 minutes. Substantial rubber seals reach 30mm into the opening at the top, sides and bottom of the door, providing protection against wind and rain.

Made to Measure

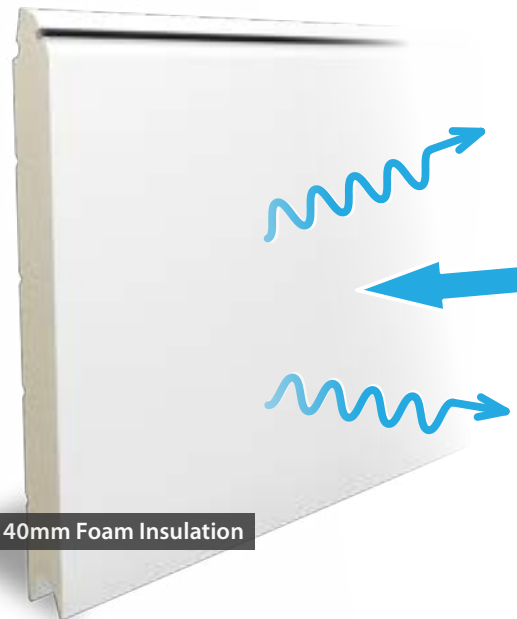

Every garage door is made to measure, meaning a bespoke fit for each and every house. A perfect fit means a perfect seal so your garage will remain watertight no matter what the British weather throws at us!

SeceuroSeal
The all-in-one garage door seal

In partnership with the Weather Defender

The optional SeceuroSeal helps reduce water ingress, keeping the garage dry and clean from outside debris – even in the worst weather. Fitted on the ground underneath the door, SeceuroSeal is ideal for garages with uneven floors or those that lie at the bottom of a sloping driveway.

40mm Foam Insulation

"My garage is my workshop, and the thick panels have definitely helped to keep my garage cosy, meaning I can work on my projects all-year-round!"

Choose a quality door that's engineered to last, complete with advanced security features.

By choosing a SeceuroGlide Sectional Garage Door, you are investing in a door that will last for years to come. Look beyond the aesthetics and you'll find a door that's packed with security-enhancing technology.

Superior Components

With superior components, expert manufacturing and fully approved installers, our sectional garage doors provide not just a sleek design, but a quality finish that is visible both inside and out. The strong steel panels and dense foam are highly resistant to attacks from would-be intruders, helping enhance your home security.

Unique Track System

Engineered by industry experts and developed to the highest specification, SeceuroGlide Sectionals feature a unique track connecting system. This patented system uses smart connect tracks, which allows the installer to adjust the tracks with more precision, ensuring your door will run smoothly for many years to come.

Protection for your Home

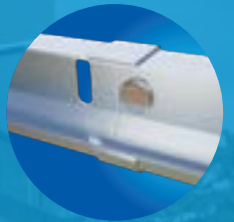

The powerful motor operator doesn't just provide reliable opening and closing of the door, it stops unwanted intruders from breaking in too. SeceuroGlide's clever operators incorporate an integrated locking mechanism that automatically engages when the door is closed.

Rolling code technology delivers additional security by making it more difficult for unauthorised individuals to intercept and replicate the code.

Strong & Secure

Key Features

- Two stylish remote control handsets
- Automatic object detection
- Integral self-locking mechanism
- Convenient courtesy light
- Soft start and stop

Effortless opening at the touch of a button.

Enjoy the simplicity of smooth automation and the convenience of being able to open your garage door without leaving your home or car.

Reliable Motor Operation

With a choice of motor operators, SeceuroGlide Sectional Garage Doors deliver reliable and powerful performance, perfect for a stress-free routine. The manual override means you can open and close your door in the event of a power failure, providing a safe exit route in an emergency.

Ultra-Quiet

Ultra-quiet motors paired with a clever track-connecting system provide smoother operation and a reduction in noise. Optional tandem rollers further reduce friction and enhance weight distribution, particularly on larger doors.

A Choice of Powerful Motors

BLACK EDITION

5 YR WARRANTY

The Black Edition motor operator is compatible with a variety of hand transmitters, wall switches and keypads, offering great value, choice and control. It features a built-in alarm that automatically sounds if the door is left open for more than 10 minutes.

Smooth **manual** option also available.

somfy®

7 YR WARRANTY

The Dexxo range of motor operators from Somfy provides rapid opening and closing at a speed of up to 18 cm/s as well as partial opening for easy pedestrian access and ventilation. Tested for up to 90,000 open and close cycles, SeceuroGlide's **exclusive 7-year Somfy automation warranty** gives you peace-of-mind protection for even the busiest of doors.

A Smart Way of Living

The Dexxo range of operators are compatible with an extensive range of controls, including stylish remotes, a separate wall switch or Somfy's innovative range of Home Automation accessories, meaning you can control your garage door through a smartphone or compatible voice assistant.

Stunning options for any home.

Panel Designs

Pedestrian Doors

Enhance the functionality and convenience of your SeceuroGlide Sectional Garage Door with the addition of a wicket door. Wicket doors provide easy pedestrian access without the need to fully open the garage door, saving time and energy.

Designed for Busy Lives

Perfect for frequent use, a wicket door offers a seamless integration that maintains the door's sleek appearance while ensuring durability and security. Whether you're grabbing a tool or quickly entering the garage, a wicket door adds a practical and stylish solution to your garage door needs.

Grey Aluminium Smooth Un-Ribbed with Wicket Door

Note: Wicket doors are compatible with Somfy motor operators and manual operation doors only.

Options & accessories.

Security Upgrades

Further enhance the security of your door with a choice of security upgrades, including internal shoot bolts or, for the ultimate protection, opt for the new SeceuroGlide security kit, which locks the bottom of the door firmly in place.

Lockable External Override

While every electrically operated SeceuroGlide Sectional comes with a manual function to operate the door from the inside if the power fails, a lockable external override allows you to operate the door from the *outside*, essential if there is no secondary access point.

Additional Control Options

From extra handsets for busy households to stylish internal switches or a secure external entry keypad, SeceuroGlide's wide range of control options makes operating your door easy and convenient.

A Smart Way of Living

Smart controls from Somfy enable you to operate your garage door, motorised blinds, gates, awnings and lights at anytime, from anywhere, all in one place. Operate everything from the Somfy app or use convenient voice control for on-the-go operation.

Lifestyle Add-ons

Whether it's a convenient letter box or discreet cat flap, design a door that perfectly fits your lifestyle. Increase air circulation with a ventilation grill, especially useful if you have laundry facilities in your garage and during the summer months.

Drive-Through Height	DOH - 230 mm	DOH - 20 mm
Fitting Type	Face	Reveal
Side Room Required	85 mm	100 mm

DOH = Daylight Opening Height

Important Information

Colours & Finishes

- The printing process does not allow exact reproduction of the paint colours. If you are unsure of your colour choice please ask your supplier for a sample. Colour references quoted are the nearest standard RAL or reference number to the colours used. They will not be an exact match and are intended as a guide only.
- Where purchased, doors are supplied with exterior frames and profiles in a smooth powder coated painted finish. Dura doors only are supplied with exterior frames and profiles painted in a finegrain textured finish. Due to the manufacturing process, it may not be possible to obtain an exact match to the panels and the texture of the finish may vary.
- Multiple doors should be ordered together to obtain the best colour match, bearing in mind the limitations of the materials used in construction.
- The visual panel configuration varies depending on the height and/or width of the door. The appearance of different sized doors made from the same panel can vary significantly.
- The factory application of the paint finish involves an automated process and this may result in minor blemishes or slight inconsistencies in the paint.
- We recommend that you perform a visual quality check on installation. Carry out the quality check in natural daylight, not direct sunlight. Stand at a distance of 3 metres from the product to view the overall appearance.
- The product is acceptable if, taking into account the facts below, none of the following is readily visible on the face of the product:
 - Marks or distortions associated with the manufacturing process
 - Minor indentations, marks or scuffs on the surface
 - Paint or stain blemishes
- While weathering and sun exposure can cause the exterior surface to fade, colour change or fade will be limited and uniform.

Product Care

- Correct operation and care of your SeceuroGlide Garage Door in accordance with the official Operating & Maintenance Manual will prolong the life of your door and minimise the likelihood of issues.

- The door needs wiping with a damp cloth and a mild detergent to remove any excessive dirt/grime to maintain its appearance and to reduce the risk of the surface being damaged.
- Floor must be smooth, level and kept clear of dirt and debris, which can cause deterioration of the rubber seal.

Extreme Weather Conditions

- High winds and high temperatures on double doors can cause increased deflection of the door. It is the installer's responsibility to ensure that the door is spaced off the wall sufficiently to allow for door movement during these extreme weather conditions.
- Darker coloured double doors that are exposed to significant direct sunlight may be susceptible to expansion which may interfere with the operation of the door.
- If a door is situated in an exposed location and subjected to very high winds and driving rain, the SeceuroGlide range does not guarantee against water ingress. As part of the product's testing for the CE or UKCA marking, the product has not been tested against this and as such is classified as NPD (No Performance Declared).
- Whilst the garage door panels are primed and coated for the external environment – any doors fitted in coastal environments may be at risk of deterioration due to the weather conditions. Ensure you keep your door clean and follow the instructions for cleaning the door in the Operating & Maintenance Manual.
- Regular cleaning of doors in 'high corrosive areas' such as within 2 miles of the sea is especially important. Your product should be cleaned thoroughly weekly using warm water and mild detergent with a soft cloth or sponge. Allow to dry naturally. Never use strong detergent, abrasive, caustic, or solvent-based cleaners.

Warranty Conditions

- The SeceuroGlide warranty covers **parts only** and does not cover labour costs or consequential costs, including but not limited to call-out fees, transport costs and costs remedial work for removing and/or re-installing faulty parts.
- SWS UK will replace or repair any components of our products where the manufacturing process has resulted in a defect occurring during the relevant period, subject to the exceptions and conditions set out below.
- For all replacement electrical parts, the warranty period is 12 months or the remainder of the warranty period (whichever is the longest).

The warranty **does not cover** the following:

- ✗ Any marks, distortion, stains, blemishes, indentations or scuffs which are not observable from at least 3 metres away in natural light (not direct sunlight).
- ✗ Defects which are as a result of:
 - Incorrect installation of the product, not following SWS UK's installation instructions.
 - Incorrect or lack of proper care and maintenance of the product in accordance with SWS UK's Operating & Maintenance Manual.
 - Incorrect operation of the product.
 - Any modifications made to the product made by anyone other than SWS UK.
 - Normal wear and tear.
 - Accidental or malicious damage.
 - Impact damage or scratches, dents, scuffs or other minor abrasions.
 - Use or attempted use of non-SWS UK spare parts.
 - Repairs or attempts at repairs undertaken by any person other than someone specifically authorised by SWS UK.
 - Any failure of masonry or other structures on to which the product has been fixed.
 - Any attempt to reduce operating clearances by means of infills or draughtproofing.
 - External influences such as extreme or abnormal weather conditions, fire, water, salts, chemicals and bird droppings.
 - Any fault or surge in the customer's electricity.
- ✗ Rust or corrosion caused by exposure to saltwater or salty air for products installed within **500 metres of the sea** or a large body of saltwater. For products installed within 2 miles of the sea, the exterior finish of the product is guaranteed for a limited period of 2 years.
- ✗ Consumables such as fuses, light bulbs or batteries.
- ✗ Indirect, special or consequential loss or damage howsoever caused, including remedial work costs, call-out fees, tool or plant hire and transport costs.

Warranties

SeceuroGlide Sectionals are guaranteed against defect of material or workmanship by SWS UK with a **parts only** warranty, subject to correct installation, maintenance and operation:

- **Panel finish:**
 - Un-painted panels - 10 years
 - Painted panels - 5 years
- **Mechanism & hardware** - 5 years
- **Perishable rubber parts** - 2 years
- **Black Edition motor operator** - 5 years
- **Somfy motor operators** - 7 years
(subject to online warranty registration within 3 months of installation)

Register Your Warranty

You must register your warranty at www.seceuroglide.co.uk to activate your extended product guarantee. It takes just a few moments and also gives you easier access to maintenance and operation information, spare parts and warranty claims.

Regular Servicing

To ensure the longevity and continued good operation of your SeceuroGlide Garage Door, it is recommended that your door is serviced by a trained engineer every 12 months. You may be required to show a full service record for the product when raising a warranty claim.

SeceuroGlide Quality & Reliability

Your garage door checklist.

Remember, only SeceuroGlide offers all of the following:

✓ A name you can trust

When buying a SeceuroGlide door you can be reassured by the values behind the name. Every SeceuroGlide door is UKCA marked and SWS UK is ISO 9001 and ISO 14001 accredited. SWS UK is a subsidiary of Stella Group.

✓ A solution for everyone

With so much choice SeceuroGlide doors can accommodate almost every garage. Whether you have limited headroom, require manual operation or are looking for tried and tested security, there is a SeceuroGlide door that's right for you.

✓ Engineered to perfection

Through continuous development and specialist engineering, SeceuroGlide doors offer unrivalled quality and the most advanced garage door specifications complete with energy-saving insulation, perfect for modern day garages.

✓ Precision manufacturing

Using the latest machinery and equipment, all SeceuroGlide doors are meticulously crafted and made-to-measure using only the highest quality components.

✓ Expertly installed

We've hand-picked our UK-wide network of SeceuroGlide approved installers. You can be confident that your local distributor is fully trained and certified to design and install your door with precision and expertise.

The importance of conformity with UKCA marking.

It is against the law to install a power operated garage door in the UK without complying with The Machinery Directive.

To comply with the Machinery Directive both the door and the motor and controller used in the installation must have a Declaration of Incorporation from the manufacturer.

On completion of the installation the installer must provide a Declaration of Conformity and apply a UKCA mark giving details of the installation to the door / motor and controller combination, which is now classed as a machine.

The installer must issue to the customer a Declaration of Conformity and Operating and Maintenance instructions on the completion of the installation.

The installer must hold copies of both the Declaration of Incorporation and the Declaration of Conformity on a technical file for inspection by the relevant authorities.

If any of the above requirements are not fulfilled the Installation is illegal.

Please ensure for your own safety and peace of mind that whoever installs your electric motor and controller is both willing and able to fulfil these requirements; if they are not – do not use them.

As members of the Door & Hardware Federation (DHF), SWS UK supports its trade installers with specialist advice on compliance and correct certification in line with current standards. Any advice is provided by SWS UK employees who are qualified in best-practice guidelines.
